Continued Examination Under 37 CFR 1.114

A second request for continued examination under 37 CFR 1.129(a) was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.129(a), and the fee set forth in 37 CFR 1.17(r) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.129(a). The advisory action of 1/6/08 was sent in error; the examiner regrets any inconvenience to applicant.

Applicant's submission filed on 12/9/05 and the supplemental amendment filed 3/23/06 have been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a method of using a hybridization assay means, or oligonucleotide probe wherein the probe is one which specifically distinguishes target comprising one of the regions recited in the instant claims. Applicant's arguments with regard to lack of double-patenting are persuasive in view of the amendment filed 3/23/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
